To Whom It May Concern;

We have been using IEV for our web hosting & design for the last 9 months or so. Our search began when we decided to update our site. After interviewing a number of companies we chose IEV based upon their total expertise of graphic excellence, hosting experience of like companies, computer skills and personality. They are a fun group to work with and they do what they say they will do - when they say they will do it! (There's a novel thought).

They have good communication skills and are excellent listeners. They do their best to give *me* what I want. If they have a 'better idea', it is presented solely as an option for us, and it seems we usually roll with their idea because it *is* better.

Our site is bringing us the kinds of leads we need to grow our business. I expect to be working with IEV for many, many more years.

Sincerely,

Tony Baldwin  
President
